

Moving Made Easy! For Pets!

From Jana Martin's Group

- Inquire with your veterinarian about the stress your pet may encounter during the move.
- Obtain your pet's medical records from your veterinarian.
- Bring a bottle of the water you normally give to your pet. New water may upset your pet's digestive system.
- Bring your pets' bowls on the trip for food and/or water.
- Make sure the hotel where you may stay accepts pets.
- Bring a favorite toy and give your pet lots of attention... the move is just as upsetting to them as it is to you.
